

Radiation Declarations

Applicant

I, the applicant, understand the University Policy on Radiation Safety Management requirements, and agree to apply them in the research project. I also declare that all details in this application are true and correct.

Project Leader (Manager/Supervisor) Declaration

1. I certify that I am aware of the University's Radiation Safety Management requirements, that I will take responsible care with the use of radioisotopes and/or apparatus specified in this risk assessment, and that all involved staff and students will be properly instructed in the safe use and disposal of radioisotopes, apparatus and/or equipment.
2. I certify the BCR Process Risk Assessment has been developed in consultation with and has been read, understood and will be signed by all workers undertaking the process.
3. I certify the necessary resources will be provided to implement any outstanding controls before the BCR process commences in accordance with any assigned Actions.
4. I am satisfied that with the implementation of the control measures, the risks are as low as reasonably achievable.
5. I certify that necessary resources for costs of disposal are available, and waste will be disposed of according to regulatory requirements.

Executive Dean/Director Declaration

1. I am satisfied that with the implementation of the control measures, the risks are as low as reasonably achievable.
2. I certify that the project described in this BCR process risk assessment can be accommodated within the general facilities of my department and that appropriate facilities and procedures are in place for safe use of the materials specified and I hereby consent to the work.

Chair, University Radiation Safety Committee (RSC) Declaration

1. The University Chemical Advisory Safety Committee has carefully reviewed this BCR process risk assessment and have approved the use of radiation as described in the process.
