Step 1. What you can do in the first few minutes...

- Remain calm
- Find a quiet space
- Offer the student a glass of water or tissues (if able)
- Listen and respectfully acknowledge what is happening for the student without judgement
- Do not attempt to 'fix' the issue; check your understanding of the issue and let the student know that help is available
- Be clear about your helping role in this moment (e.g. to listen and provide referral to support services)
- Provide details of the UniSA Counselling Service and Out-of-Hours Crisis Line (Call 1300 107 441 or text 0488 884 163)
- Seek consent to refer to the Counselling Service or other SEU support service as appropriate
- Offer to follow up and/or meet again (if appropriate)
- Make eReferral to Student Engagement Unit (if appropriate)

Step 2. If student remains distressed, determine next level of response required:

- Threats of harm to self or others in conversation or via email
- Discussing imminent plans for suicide or selfharm in conversation or via email

- A missing student
- Serious Mental Health episode (including hospitalisation)

- Student Welfare Check may be instigated by Counsellor (based on risk assessment by Counsellor)
- Staff member to contact and debrief with line manager and/or relevant Academic Unit manager (e.g. Dean of Programs/Executive Dean)
- Staff member may access EAP 1300 277 924 (as required)
