The blue strip down the left hand side is the **navigation menu bar**. This is where you'll do most of your navigating through the system

The map shows the location of UniSA buildings within South Australia. The numbers in the orange bubbles show the number of buildings in that area. You can click on the bubbles to zoom to that area, use the scroll wheel on your mouse, or use the navigation controls in the top left corner. But you'll probably find navigating via the navigation menu easier!

The screenshot shows the FM Interact interface with a search for 'hawke' applied to the 1.04U Rooms grid. The search results are filtered to show only records containing 'hawke' in the Building Name or Room Name columns. A callout box explains the search functionality.

You can SEARCH to find what you're looking for – type anything in the lower search box and click the search icon to search the grid immediately below.

You can search whatever data is in the grid - examples for the Rooms view are building name, room number, room name

The screenshot shows the FM Interact interface with a search for 'H5-24' applied to the 1.04U Rooms grid. The search results are filtered to show only the record for room H5-24. A callout box explains that the search results in the grid may not match the details in the details panel below.

Be careful! What you see in the grid isn't always what you see in the details panel below. This happens when you apply a search or filter to the grid when you've already got a record selected

You need to select the record in the grid to see the corresponding details below
